Announcement 055/2558
Sustainable Development Policy

Home Product Center Public Company Limited (“The Company”) is committed to operate its business by integrating the consideration of economic, social, environment and having responsibilities to all relevant stakeholders. These will enable the Company to achieve the goal of sustainable development policy

The Company’s operation will prevent or relieve the impact on the environment, including environmental restoration. The company will efficiently manage in every process under supply chain management especially in the aspects of greenhouse gas, efficient usage of energy and fuel, water saving, and waste management which will reduce the environmental impact.

The Company encourages all employees to put effort to conserve environment with consideration of public interest and to be in accordance with sustainable development policy. In this regard, the company would like to encourage its business partners to apply sustainable development policy in the part that related to their business as well

This shall be effective since 1 October 2015 onward

Announced on 1 October 2015
