

Announcement 009 / 2020

Energy Conservation Policy

Home Product Center Public Company Limited and its subsidiaries operate the business with the balance between the economy, the society, and the environment according to the Sustainable Development Policy and the Energy Management Policy. The emphasis is placed upon energy conservation to manage and control the Company's activities to use appropriate amount of energy for the highest efficiency. In addition, to enhance the Energy Conservation Policy in Announcement 040/2018 dated January 1<sup>st</sup>, 2018, the Company made amendments to the Energy Conservation Policy, detailed as follows:

1. The Company declares energy conservation as part of its business operation and will continue to enhance the efficiency of its energy usage continuously to achieve the energy consumption reduction goal. The Company will incorporate alternative energy sources according to the Renewable Energy Policy to prevent possible impacts and create new business opportunities for the Company.
2. The Company will control and set the appropriate energy consumption limit for energy types and usage method to promote energy conservation.
3. The Company will comply with the law and other regulations related to energy conservation, energy management, energy consumption control, energy consumption amount, and energy consumption effectiveness.
4. The Company will set objective, goal, and practical plan for energy conservation, which will be reviewed regularly every year or on appropriate occasion to ensure the effectiveness.
5. The Company will manage necessary resources effectively and support the design, procurement, and sourcing of machinery, tools, equipment, and other services that are crucial to energy conservation and energy management to achieve the objective of the Company.

This announcement is effective from January 1<sup>st</sup>, 2020 onwards.

For mutual acknowledgment,

Announced on January 1<sup>st</sup>, 2020.
